

## MONASH UNIVERSITY INDONESIA ART COMMISSIONS BUMI SERPONG DAMAI CITY, JAKARTA

**Monash University Indonesia and Monash University Museum of Art | MUMA are pleased to present seven new art commissions produced by Indonesia-based contemporary artists.**

In 2021 MUMA worked with an international campus for the first time, following the invitation of Professor Andrew MacIntyre, President, Monash University Indonesia to acquire a collection of artworks by Indonesian artists for the new post-graduate campus.

In collaboration with Jakarta/Melbourne-based art consultant Santy Saptari, MUMA commissioned seven contemporary artists to make new works for Monash University. These feature a broad range of media from painting, photography and drawing to sculptural relief.

Artists include Arum Dayu, Andy Dewantoro, Arwin Hidayat, Maharani Mancanagara, Patriot Mukmin, Prabu Perdana and Citra Sasmita.

Works address a number of issues including recent experiences of the COVID-19 pandemic and its impact, both locally in the Indonesian community and globally, key moments in Indonesia's political and cultural history, and the continuing influence of folklores and art traditions.

Located on Monash University's Caulfield Campus, Melbourne, Australia, MUMA is a critically influential centre of ideas and education for the community, and a proponent of innovative art-led models of interdisciplinary teaching, learning and research across the University. MUMA has partnered with colleagues in other faculties over the years to acquire artworks for display in specific campus locations.

Monash University, Indonesia campus, is located in Bumi Serpong Damai (BSD) City in southwest Jakarta – part of a burgeoning, modern and sustainable city centre. Green Office Park and the BSD Precinct are highly environmentally sustainable and form a vibrant precinct of work, recreation and lifestyle around the campus.

The works are now on show at Monash University Indonesia: Green Office 9 Building, Jl. BSD Green Office Park, Sampora, Cisauk, Tangerang Regency, Banten 15345, Indonesia
